8th International Workshop on Ring Imaging Cherenkov Detectors (RICH 2013)

Monday 02 December 2013

Cherenkov light imaging in particle and nuclear physics experiments: Cherenkov light imaging in particle and nuclear physics experiments - (09:20-10:00)

- Conveners: Ratcliff, Blair

time	title	presenter
09:20	Review talk: Cherenkov light imaging in High Energy and Nuclear Physics	SCHWIENING, Jochen

Cherenkov light imaging in particle and nuclear physics experiments: Cherenkov light imaging in particle and nuclear physics experiments - (10:30-11:45)

- Conveners: Ratcliff, Blair

time	title	presenter
10:30	THE RICH DETECTOR OF THE NA62 EXPERIMENT AT CERN	PICCINI, Mauro
10:55	TOP counter for particle identification at Belle II experiment	INAMI, Kenji
11:20	The PANDA Barrel DIRC Detector	HOEK, Matthias

Cherenkov light imaging in particle and nuclear physics experiments: Cherenkov light imaging in particle and nuclear physics experiments - (14:00-15:40)

- Conveners: Iijima, Toru

time	title	presenter
14:00	The LHCb RICH system; detector description and operation	PAPANESTIS, Antonis
14:25	The ALICE-HMPID performance during the LHC run period 2010-2013	DE CATALDO, Giacinto
14:50	The large-area hybrid-optics CLAS12 RICH detector: tests of innovative components	CONTALBRIGO, Marco
15:15	Aerogel RICH counter for the Belle II forward PID	NISHIDA, Shohei
