Wednesday 22 February 2023

Experiment - ES635 + Zoom (13:30-14:30)

time	title	presenter
13:30	17. Analysis of the first physical run of the NINJA experiment	KASUMI, Ayaka
13:37	18. Development of analytical method for large-grained nuclear emulsion	SHIMIZU, Kai
13:44	19. Development of a hybrid-photodetector for the DARWIN experiment	HASEGAWA, Tomoya
13:51	20. Development of a low-noise SiPM for the DARWIN experiment	SAKAMOTO, Shun
13:58	21. The energy scale stability of the LHCf Arm1 detector during the operation 2022	KITAGAMI, Yuga
14:05	22. Development of a laser system for the ^3He spin filter to polarize neutron beam	GOTO, Yu
14:12	23. Radiation tolerance test for the new muon detector electronics at the HL-LHC ATLAS experiment	HASHIMOTO, Daisuke
