# #future-of-theory-initiative

---

1. How are speakers for "TI talks" chosen?
  - For speaker requests sent to the SC, we select active WP co-authors, considering balance (area, career stage).
  - Not all invitations go through the SC. Those are handled by the individuals.
2. How were the three CERN Courier (and other popular media articles) created?  
short answer: not by the SC
3. How to encourage authors to follow the recommendations for citing WP results?
  - See Martin's response on Slack — further suggestions?

We encourage continued discussion on Slack:  
[muong2theoryi-clp2688.slack.com](https://muong2theoryi-clp2688.slack.com)

# Future workshops and WP updates

---

## Workshops:

- 2022: 1-2 workshops (dates TBD)  
possible hosts: Edinburgh and Bern
- 2023: Japan

## WP updates:

- timing currently under development
- plan to coordinate with the Fermilab g-2 experiment
- Fermilab g-2 experiment plans to release measurement from Runs 2&3 in ~ mid 2022.
